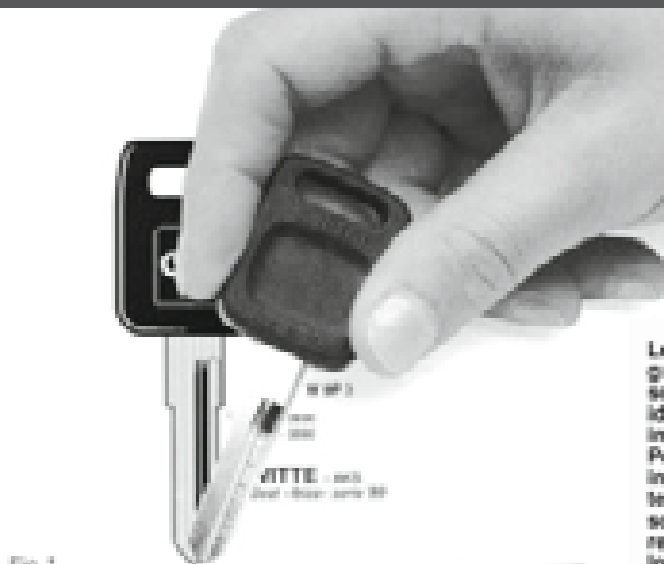

Fig. 1

Le chiavi riportate in questa guida sono in grandezza naturale, pertanto basta sovrapporre il campione al disegno per poter identificare il tipo di chiave (come mostrato in fig. 1).

Per verificare il profilo della chiave occorrerà invece sovrapporre la canna della chiave, tenendola per la testa, al profilo riportato sotto la figura della chiave stessa e osservare l'esatta corrispondenza delle fresature longitudinali (vedere fig. 2).

Fig. 2

Die im Katalog abgebildeten Schlüssel sind in Originalgröße gezeichnet, so dass es genügt, den Musterschlüssel wie in Abb. 1 dargestellt, auf die jeweilige Schlüsselabbildung zu legen. Um das Profil des Musterschlüssels zu prüfen, halten Sie den Schlüssel am Kopf fest und stellen die Schlüsselspitze auf die Profilzeichnung, um die Längsnuten zu prüfen, wie in Abb. 2 dargestellt.

The key blanks shown in this guide are of actual size, to identify them, it is sufficient to place the sample on top of the drawing. (See fig. 1).

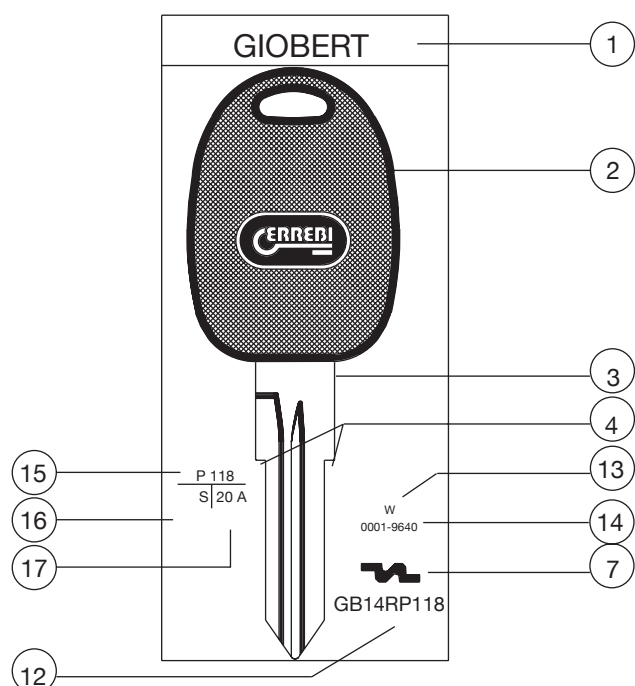

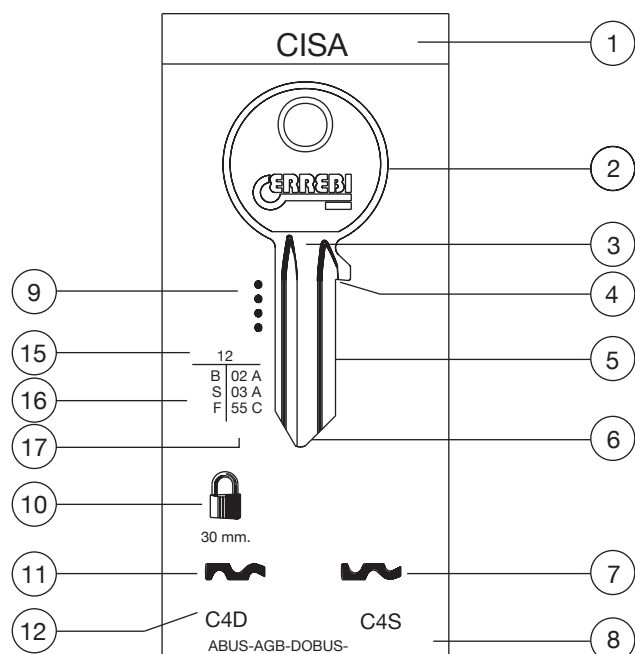

To verify the key blank profile, place the tip of the blade, holding the key by the head, on top of the key profile which is located underneath the drawing and observe if the grooves of the sample key match. (See fig. 2).

Les dessins des clés de ce guide sont à échelle 1:1 et les profils sont vus de la tête. Pour identifier une clé il suffit de superposer l'échantillon au dessin; pour vérifier le profil tenir la clé par la tête, placer la pointe au dessus du dessin du profil et examiner les deux côtés du profil.

Las llaves citadas en este catálogo son de tamaño real, por lo tanto es suficiente superponer la muestra al diseño para poder identificar el tipo de llave (como se muestra en la fig. 1). Para verificar el perfil de la llave se deberá superponer la caña de la llave, sujetandola de la cabeza, al perfil citado debajo de la figura de la misma llave y observar la coincidencia de los fresados longitudinales (ver la fig.2).
